RISK FACTORS

1. We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to decline and adversely affect our return on assets and profitability.
2. Any downgrade in our credit ratings could increase borrowing costs and adversely affect our access to capital and lending markets and could also affect our reputation, interest margins, business, results of operations, cashflows and financial condition.
3. We may not be able to maintain our current levels of profitability due to increased costs or reduced spreads between the interest rates at which we borrow and lend.
4. Certain loans and debt raised by us entail interest at variable rates and any increases in interest rates may adversely affect our results of operations.
5. Our business requires substantial capital and debt, and any disruption in funding sources would have a material adverse effect on our liquidity, cash flows and financial condition.
6. Our significant indebtedness and the conditions and restrictions imposed by our financing arrangements could restrict our ability to conduct our business and operations in the manner we desire.
7. A decline in our capital to risk assets ratio could restrict our future business growth.
8. We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.
9. We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.
10. We may be unable to protect our logos, brand names and other intellectual property rights which are critical to our business.

11. Our inability to compete effectively in an increasingly competitive industry may adversely affect our net interest margins, income and market share.
12. If we are unable to manage the level of GNPA's in our loan assets, our financial position and results of operations may suffer.
13. High levels of customer defaults could adversely affect our business, financial condition and results of operations.
14. If our provisioning requirements are insufficient to cover our existing or future levels of non-performing loans or if future regulation requires us to increase our provisions, our ability to raise additional capital and debt funds as well as our results of operations, cash flows and financial condition could be adversely affected.
15. We depend on the accuracy and completeness of information about customers and counterparties for our business. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.
16. Our business is subject to various regulatory and legal requirements governing the banking and financial services industry in India. Also, future regulatory changes may have a material adverse effect on our business, results of operations and financial condition.
17. We are subject to periodic inspections from RBI and NHB. Non-compliance with RBI or NHB observations may have a material adverse effect on our business, financial condition, cashflows and results of operation.
18. The restrictions imposed on NBFCs by the RBI through a Master Circular – Bank Finance to Non- Banking Financial Companies dated July 1, 2015, as amended, may restrict our ability to obtain bank financing for specific activities.
19. Changes in RBI's priority sector lending requirements may adversely affect our cost of funding.
20. If interest rate restrictions are imposed on lending by HFCs, our operating results and financial condition may be adversely affected.
21. We require certain statutory and regulatory approvals for conducting our business and our inability to obtain, retain or renew them in a timely manner, or at all, may adversely affect our operations.
22. We may not be in compliance with relevant state money lending laws, which could adversely affect our business. In the event that any state government requires us to comply with the provisions of their respective state money lending laws, or imposes any penalty, including for prior non-compliance, our business, results of operations and financial condition may be adversely affected.
23. The implementation of the Bankruptcy Code may affect our rights to recover loans from borrowers.
24. System failures or inadequacy and security breaches in computer systems may adversely affect our business.
25. Our customer base comprises primarily individual borrowers, who generally are more likely to be affected by declining economic conditions than large corporate borrowers. Any decline in the repayment capabilities of our borrowers, may result in increase in defaults, thereby adversely affecting our business, cash flows and financial condition.
26. We have exposure to the real estate sector and any negative events affecting this sector could adversely affect our business, cash flow and result of operations.
27. Our insurance coverage may not adequately protect us against losses.
28. We may not be able to successfully sustain and manage our growth strategy. Inability to effectively manage any our growth and consequently related issues may adversely affect our business and financial condition.
29. The success of our business depends on our ability to attract and retain our senior management and employees in critical roles, and the loss of their services could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.
30. Our business is dependent on relationships with our clients established through, amongst others, our branches and key branch personnel. Closure of branches or loss of our key branch personnel may lead to damage to these relationships and a decline in our revenue and profits.
31. Any future change in control of FICCL shareholders and disassociation of our Company from the parent group could adversely affect our operations and profitability.
32. Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts in India and in some developed countries.
33. Lapses or significant weakness of internal controls systems could adversely impact our business.

34. We are subject to certain restrictive covenants in our borrowing documents, which may restrict our operations and ability to grow and may adversely affect our business.

RISKS IN RELATION TO THE NCDs:

1. Risks in relation to the security created in relation to the Debentures,

 - b. We may not be able to accurately appraise or recover, on a timely basis or at all, the full value of collateral or amounts which are sufficient to cover the outstanding amounts due under defaulted loans, which could adversely affect our business, cash flow and results of operations if any.

3. You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.
4. There has been a limited trading in the NCDs of such nature and the same may not develop in future, therefore the price of the NCDs may be volatile.
5. Any downgrading in credit rating of our NCDs may affect the trading price of the NCDs.
6. Changes in interest rates may affect the prices of the NCDs.
7. Payments made on the NCDs will be subordinated to certain tax and other liabilities preferred by law.
8. There are other lenders and debenture trustees who have pari passu charge over the security for the NCDs.

12. Refusal of listing of any security of the issuer during last three years by any of the stock exchanges in India or abroad.

Nil

13. Limited or sporadic trading of non-convertible securities of the issuer on the stock exchanges.

We cannot assure you as to the liquidity of any market that may develop for the Debentures or the ability of holders of the Debentures to sell them. The liquidity for any market for the Debentures will depend on various factors, including general economic conditions and our own financial condition. We cannot assure you that an active trading market for the Debentures will develop or, if one does develop, that it will be maintained.

14. Any default in compliance with the material covenants such as creation of security as per terms agreed, default in payment of interest, default in redemption or repayment, non-creation of debenture redemption reserve, default in payment of penal interest wherever applicable, In case of outstanding debt instruments or deposits or borrowings.

General risks

Investment in non-convertible securities involve a degree of risk and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under the above section of the Placement Memorandum. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities.

PARENTAGE RISK FACTORS

Sumitomo Mitsui Financial Group, Inc. ("SMFG") and Fullerton Financial Holdings Pte, Ltd (FFH) their subsidiaries and affiliates are not the obligors under the Debentures issued. Payment by the Issuer of interest and principal under its outstanding indebtedness, including the Debentures, is not backed by the credit of, or supported by any guarantee in any form from, SMFG or FFH, their subsidiaries or affiliates.

Fullerton India Credit Company Ltd currently holds 100% of FIHFCL. FICCL can cease to beneficially own, directly or indirectly majority interest in FIHFCL which can result in change of control.

Sumitomo Mitsui Financial Group, Inc. ("SMFG") has purchased 74.9% equity shareholding of our promoter (FICCL) from Fullerton Financial Holdings Pte Ltd. ("FFH") on 30th November 2021. SMFG will eventually acquire 100% of FICCL.

Any future change in control of FICCL shareholders and disassociation of our Company from the parent group could adversely affect our operations and profitability.

III. Management perception of Risk factors

FIHFCL is a wholly owned subsidiary of FICCL. By virtue of parent-subsidiary relationship, FIHFCL is expected to benefit from synergies in the form of using its well-defined risk management policy framework for identification, assessment, and control to effectively manage risks associated with the various business activities. The FIHFCL risk management approach is based on a clear understanding of target market, environmental scanning and disciplined assessment and mitigation. The overall risk management culture is driven by Risk Appetite framework duly approved by the Board.

The Company has a risk management architecture independent from business to ensure impartial oversight. The Board of Directors endorses the credit risk strategy and approves the credit risk policies. They guide the development of policies, procedures and systems for managing overall risk. The Risk management function is adequately equipped for Credit Risk Management, Collections, Legal, Risk Analytics, Operational Risk & Fraud Control and information security.

FIHFCL being wholly owned subsidiary of FICCL, shares, branches common resources for various functions in departments like Human Recourse, Legal, Risk Management & Other infrastructures etc. In case this support is withdrawn or disrupted in any manner, the Company would be exposed to risk of having an impact on its business.

The various risks relating to the business and their mitigation are detailed below:

a. Credit risk

This refers to risk of delay or defaults in payments by borrowers. High levels of customer defaults could adversely affect business plans, financials and credit worthiness. This can be mitigated by strong and independent credit, data-based credit appraisal, proactive segment level monitoring and collection processes. Dynamic bureau data usage and deep portfolio analytics shall be extensively used by the Company for driving risk management actions and shaping the portfolio towards less volatile products.

b. Operational risk

The company is prone to operational risks due to employee errors, fraud and technology related issues. This risk is moderated via independent operational risk framework which assesses, highlights forward looking risks and specifies mitigants. Key control standards are implemented across businesses. Processes and functions are regularly reviewed. An independent Operational Risk Management Committee (ORMC) oversees this function.

c. Market and Liquidity risk

Interest rate risk is inherent to the Company's business as a borrower of funds. Since the Company is dependent on wholesale institutional funding, a rapid change in the risk appetite of lenders can adversely affect its funding plans. An independent and focused Asset Liability Committee (ALCO) tracks and monitors market indicators with a view to reducing this risk. Further, active diversification of lenders, matching asset - liability tenor and maintaining adequate liquidity buffers substantially reduce this risk.

d. Legal and Compliance risk

The Company is regulated by various authorities. Non-adherence to any provisions or varying interpretations of existing guidelines may result in regulatory or legal actions with attendant costs. Strong internal processes and continuous monitoring and review of regulations mitigate this risk. An independent legal and compliance team oversees this activity.

e. Human Capital and Resources

The operations of the Company are dependent on the availability on skilled and experienced personnel. Employee attrition hence poses a risk. Strong human resources policies and employee engagement can reduce this risk. An independent Human Resources team plays an enabling role in creating an environment of growth and development for the Company's employees. With a vision to be an 'Employer of Choice', this team builds a culture that fosters Integrity, Meritocracy, Teamwork and a sense of Community. This in turn inspires employees to perform and succeed.

f. Excessive Competition

The Risk of too many lenders chasing a limited market segment makes the overall proposition less attractive and prone to credit risk. However, the market for retail credit remains large and untapped. By careful assessment of the customer segment and choosing optimal geographical locations this risk is minimized.

Detailed rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed the ratings assigned to the bank facilities and debt instruments of Fultion India Home Finance Company Limited (IHFC) or the Company. The ratings assigned to the various debt instruments of IHFC continue to factor in strong linkages with Supreme Mitsui Financial Group (SMFG), through its immediate parent, Fultion India Credit Company Limited (FICC), and CARE AAA, Stable/CARE A1+.

CARE Ratings understands from the management that the investment in FICC by SMFG is long term in nature, and SMFG is expected to acquire remaining 25.0% from FICC in FY21 within 2 to 3 years. Moreover, India remains one of the key target markets with respect to SMFG's multi-franchise strategy in Asia-Pacific. FICC is strategically important to SMFG, as it will help SMFG tap growth opportunities in India's financial services segment, particularly in the mass market retail/retail to medium enterprises (RME) space. Given the strategic importance of FICC, and in turn of IHFC, by virtue of the parent subsidiary relationship, the SMFG, support both in terms of capital, operational and managerial expertise, is expected to be forthcoming as and when envisaged from SMFG to FICC, and FICC to IHFC through FICC. The ratings are further supported by integrated key functions, strong management support, shared infrastructure, comfortable capitalisation and liquidity profile. The ratings also factor the moderate scale of operations, vulnerable asset quality metrics and modest profitability parameters.

Rating sensitivities

Negative factors – Factors that could lead to negative rating action/downgrade:

- Material decline in the ownership by, expected support from, and strategic importance to the FICC/SMFG group.
- Any negative rating action on the parent company, FICC (rated CARE AAA, Stable).
- Deterioration in the asset quality or a sustained loss and/or deterioration in profitability leading to losses or a sustained loss.

Detailed description of the key rating drivers

Key rating strengths

Strong promoter group with demonstrated support, business synergies and common brand: FICC is a wholly-owned subsidiary of SMFG, and by virtue of parent subsidiary relationship, it benefits from synergies in the form of managerial, operational and business support from the parent. Furthermore, SMFG sees vast growth opportunities in India's financial services segment, particularly in mass market retail/SME space, and therefore, FICC is expected to play a strategically

important role in furthering SMFC's incentive in the near term. CARB Ratings understands that support from SMFC will be forthcoming as and when envisaged in FY22 and FY23 through FY25. FIBFC is also expected to benefit from synergies arising out of the parent's domain knowledge and experience in lending towards secured and unsecured segments, risk management systems in addition to the shared branch network. The parent, FIBL, has supported FIBFC through regular capital infusion (₹7.50 crore since FY15) (refer to the period April 1 to March 31) and maintaining 100% ownership in FIBFC. Additionally, during FY22, FIBL has provided FIBFC with a committed line of credit of ₹250 crore. FIBFC has benefited from its parent through overall governance framework, management support and regular capital infusion to support growth.

Experienced management team: The Board of FIBFC is headed by Shantanu Mitra. He is the Chief Executive Officer and Managing Director of FIBL and has over 40 years of experience in the financial services, with over 20 years at Standard Chartered Bank and Citibank, where he had posts in India, Singapore, and Thailand. The process of selection of new CEO is underway, after Rajesh Mahajan, CEO and Whole-time Director, stepped down from his position on March 15, 2022, pursuant to the completion of his tenure. Several new appointments have been made at the senior management level. Vinodh Subramanian has been appointed as the Chief Business Officer in February 2022 and Chandrashekar Tiwar has been brought in the position of the Chief Risk Officer.

Comfortable capital adequacy: Consequently, FIBFC received strong equity capital support from the parent group, which helped it meet comfortable capital adequacy and support growth. FIBFC had a tangible net worth of ₹564 crore as on March 31, 2022, with overall capital of ₹646, an improvement over ₹573 crore as on September 30, 2021. The company is adequately capitalised with timely capital infusion from the parent. As on March 31, 2022, the capital adequacy ratio (CAR) and Tier 1 capital ratio stood at 24.18% and 23.21%, respectively, as against 21.13% and 19.46% as on September 30, 2021. The debt to capital ratio of FIBFC has reduced from 1.10 to 1.04. Considering demonstrated capital support from FIBL in the past, CARB Ratings expects the same support to be forthcoming as and when envisaged.

Moderately diversified resource profile: The resource profile of FIBFC remains moderately diversified with loans from banks constituting maximum proportion at 74% followed by non convertible debentures (NCDs) and subordinated debts at 20.17% and 5.83%, respectively. The company has high banks and financial institutions in its lenders base and continues to diversify its borrowing profile.

Key rating weaknesses

Moderate scale of operations with limited seasonality: FIBFC commenced lending operations during December 2020. The assets under management (AUM) grew gradually from ₹474 crore as on March 31, 2021, to ₹1,416 crore as on March 31, 2022. Around 65% of the AUM as on March 31, 2022, comprised home loans (HL) in the affordable segment, 15% constituted loan against property (LAP), and rest comprised developer financing. The long term of the asset classes (HL, LAP and Developer Finance) in which FIBFC operates and the rapid growth of the AUM indicates limited level of seasonality of the book. The disbursements increased to ₹1,207 crore in FY22 after being muted at ₹558 crore in FY21, nonetheless remain below pre-pandemic levels. Going forward, the company plans to scale up the AUM levels with focus on increasing quantum of sales through CASA, overdrafts, thereby aiming to lower the cost of customer acquisition, improve portfolio quality and lower customer attrition. The company expects to achieve moderate growth in deposits and AUM levels during FY23. In CARB Ratings opinion, profitable scaling up of operations while maintaining asset quality will continue to be a key rating monitorable.

Asset quality metrics continue to remain vulnerable: FIBFC's asset quality deteriorated during FY22 primarily attributed to stress banking out across FIBFC's loan assets owing to the pandemic with gross NPA (GNPA) ratio at 3.2% and NNPA ratio of 1% as on March 31, 2022, as compared with GNPA of 3.56% and NNPA of 1.80% as on March 31, 2021. Nonetheless, there has been improvement from GNPA and NNPA levels of 8.11% and 4.12% as on September 30, 2021. The increase in NNPA during FY22 is due to stressages mostly in the housing segment followed by the LAP segment. The developer finance segment had no NPAs. The company maintained a provision coverage of 53% as on March 31, 2022, compared with 36% as on March 31, 2021. Over the last few years, the company has taken measures to improve its underwriting practices, reduced overheads, and improved loan to values (LTVs) and focused on improving its systems and processes. Furthermore, the company is eligible to act under SARFAESI since March 2018, which will help the recovery process as well. Restructured one-time restructuring (OTR) assets of ₹105 crore stood at 3.16% of advances and include ₹41 crore of housing loans and ₹64 crore of LAP. The company has prudently absorbed them as viable solution and carried provisioning of around 60% against the same. CARB Ratings notes that the company's NNPA to net worth has increased, however, in line with CARB Ratings expectations, there have been improvements in these levels over the last six months, and further improvements are likely as the company focuses on recovery, or thus necessary steps like bringing additional equity and/or provisioning to improve the ratio.

Modest profitability on a sustained basis: During FY22, the company's net interest income (NII) remained stable at ₹214 crore. With increase in the nonperforming exposures, pre-provisioning nonperforming declined to ₹90 crore in FY22 from ₹136 crore in FY21. However, with significant decline in the credit costs at ₹67 crore from ₹180 crore over the year, FIBFC recorded a profit of ₹111 crore in FY22 with return on total assets (ROTA) of 0.07% after reporting a loss of ₹56 crore and ROTA of -1.07% in FY21. While profitability improved, it continues to remain modest. The ability to improve profitability through scaling up operations while maintaining operating and credit costs under control will continue to be the key rating monitorable.

Liquidity: Strong

Press Release

As stated by the management, the Board mandate is to keep 1 month liquidity, however in practice, the company is maintaining a liquidity of around 1.5-2 months. As on March 31, 2022, the company's cash and equivalents of ₹467 crore is sufficient to meet debt obligations of ₹138 crore maturing in the next three months. Additionally, the company has undrawn sanctioned limit of ₹1,255 crore. Moreover, being a stop-down subsidiary of SMFI, the company has financial flexibility to obtain additional funding from banks or re-invest maturing debt.

Analytical approach

Standards: The rating is based on standalone assessment of FIFCL along with factoring in its linkage with its parent and entities linked therein with demand and support from Sumitomo Mitsui Financial Group, Inc. (SMFG).
